Notice

An appeal to clear all dues with reference to SCHOOL FEES

Dear Parents/Guardians,

Hope you are safe and taking all precautionary measures to keep yourself safe during this pandemic situation due to the effect of Covid-19 since last week of March, 2020. Students and children are unfortunately the worst hit during this period of crisis as they are unable to attend school for taking lessons from their teachers and have been staying indoors since past 4 months.

As educators, we know how important a teacher-pupil relationship is, for the overall development of a child. So we have been constantly striving to device means to teach our pupils despite all odds.

Accordingly in April, 2020 the School launched its website- ccghs.in and our teachers have started online classes to provide qualitative education to our school children. They are working round the clock preparing worksheets, assignments and videos for all subjects catering to all Classes, from Classes – Nursery to XII.

We hope that all parents and guardians realise the herculean task that teachers are doing for their wards so that their studies are not hampered in manner. We would thereby like to thank those many parents and guardians who inspite of all odds have felt it their moral duty to submit the schools fees knowing very well that an educational institution meets a lion's share of its expenditure from school fees only.

However there are parents who have unfortunately not yet paid the school fees. We are aware that these are trying times and so the school has reached out to all the parents by giving CONCESSION on fees as decided upon and directed by the concerned authorities of the Diocese of Calcutta (CNI). In spite of such adverse situations the school is employing all plausible means to continue teaching its students without any disruption. So we humbly appeal to each one of you to make a sincere effort to clear the school fees till date.

Helen S. Sircar
